

The Department of Psychology at St. Xavier's College, Mumbai from June 2019 will be starting a new post graduate Diploma entitled

Post Graduate Diploma in Expressive Arts Therapy

The main objective of the course is to open up this highly specialized discipline of study to the Indian Post Graduate level and to develop **competent practitioners** in the field of Expressive Arts Therapy.

In order to discover the therapeutic use of arts (music, drama, art, movement) in developmental work and create social change, the focus of the course would be to equip participants with hands on skills. Thus enabling graduates to incorporate these skills in socially challenging environments within educational and developmental settings and add to their existent capacities.

The course will be a **48 credit course (810 hours)**. The curriculum includes **fieldwork and supervision**. The training will be provided by **Internationally Certified Faculty** from across the country. This is a **part time course (3 days a week) over 1 year**.

The 5 papers per semester will focus on :

- 1) Expressive Arts Therapy Theory (Art, Drama, Movement , Music and Inter-modality)
- 2) Expressive Arts Therapy Skills (Art, Drama, Movement , Music and Inter-modality)
- 3) Counseling Theories, Processes and Skills
- 4) Fieldwork
- 5) Research Design and Methodology
