**Contact:** [language.lab@xaviers.edu](mailto:language.lab@xaviers.edu)

**Programme Introduction:** With science and technology having become an inseparable part of our daily life, the creation of scientific awareness among the masses has become all the more important now than ever before.

**Workshops through Language Lab:** 3 Hours for 2 Days

**Lab Practice:** 4 Hours

**Case Study:** 3 Hours

**Expert Talk:** 1 Hour

**Follow Up Session:** 1 Hour

**Participants:** Students of B.Sc. SY and TY Only

**Registration:** Students send in their applications to [language.lab@xaviers.edu](mailto:language.lab@xaviers.edu).

**Assessment method:** Assignments

**Details of the Program:** The UG students of science develop their own approach to scientific writing and back them with explanations, theory and logical justification. Language Lab is a setting where students are given the free will to develop their own writing style based on regular practice. If a student, during the bench-science phase of her or his career, manages to turn into an effective researcher, then the same aptitude, especially a healthy skepticism and a belief that every problem has a solution, will make the student a better journalist.

**Program Coordinator:** Ms. Jyoti Pradeep More
