Details of the Activity	
1	Title:
2	<p>Learning Objectives:</p> <p>The course underlines the importance of undergraduate students receiving a solid foundation in scientific writing early in their academic careers. The ability to effectively communicate research findings is crucial for success in the careers students choose.</p>
3	<p>Learning Outcomes:</p> <p>By increasing undergraduate exposure to the scientific writing process, we hope to better prepare them for post graduate school and to encourage Graduate students to publish early and often.</p>
4	<p>Description</p> <p>This is a fifteen hour training course focusing exclusively on writing skills along the lines of science topics. This training breaks down the writing process providing concrete examples that students from all streams can refer to when preparing a scientific manuscript.</p>
